

Staff-User Registration Form

Instructions:

Use this form to register each staff member physicians who will be using RxNT. RxNT requires that all users have their own login and password. This helps with security and accountability, and also allows staff-users to select and assign the appropriate provider for each prescription. RxNT offer various levels of access to our e-prescribing solution. Below, please find a list of the various access levels and the descriptions of authority each level possess:

- Level 0 View only Rx, ability to add patients
- Level 1 Submit prescriptions; place in pending queue for review by physician for authorization and submission
- Level 2 Fully authorized, can submit prescriptions on physician's behalf
- Level 3 Physician level, can write/submit a prescription on behalf of physician, under authorization of physician (such as licensed PA)
- Level 4 Physician's access (such as licensed physician with no restrictions)

First Name	Last Name	Primary Provider*	Authority Level

* Optional – determines which provider will be set as the default selection with the staff-user account.
